

■■ Subli Care Tracker – Keep Your Prints Perfect

Use this printable checklist to keep your sublimation printer and heat press running like new. Regular maintenance helps prevent clogs, uneven colors, and press marks so your prints always come out flawless.

Task	Frequency	Done
Clean printheads	Weekly	[]
Run nozzle test	Before each bulk order	[]
Wipe heat press plate	After each session	[]
Check ink levels	When below 25%	[]
Log press settings	Each project	[]
Inspect blanks for moisture	Before pressing	[]
Store sublimation paper in dry area	Always	[]

■ *Tip: Print this tracker and keep it near your workspace. Checking off each task helps avoid downtime and ensures consistent print quality.*
