

# DTG Printer Daily Maintenance Checklist

- Run a fresh nozzle check before printing.
- Wipe the capping station and wiper blade with approved cleaner.
- Clean lint and overspray around the printhead area.
- Gently shake white ink cartridges or run circulation.
- Perform a light cleaning if any nozzles are missing.
- Keep workspace humidity between 40 and 60 percent.
- Finish a full shutdown cycle before powering off.
- Cover the printer when not in use to reduce dust.
