

# Toilet Paper Template Pack

8 print-ready designs | [subligeniusprint.com](http://subligeniusprint.com)

## Before you print

- Print at 100 percent scale. Turn off fit to page and scale to fit.
- Print on sublimation paper with sublimation ink, at your highest quality setting.
- Each design has two versions. Use the not mirrored page if your driver mirrors for you.
- Use the pre-mirrored page only if your driver has no mirror option.
- Trim along the thin grey square before pressing so no guide marks transfer.
- Press one square first and check the result before doing a whole roll.

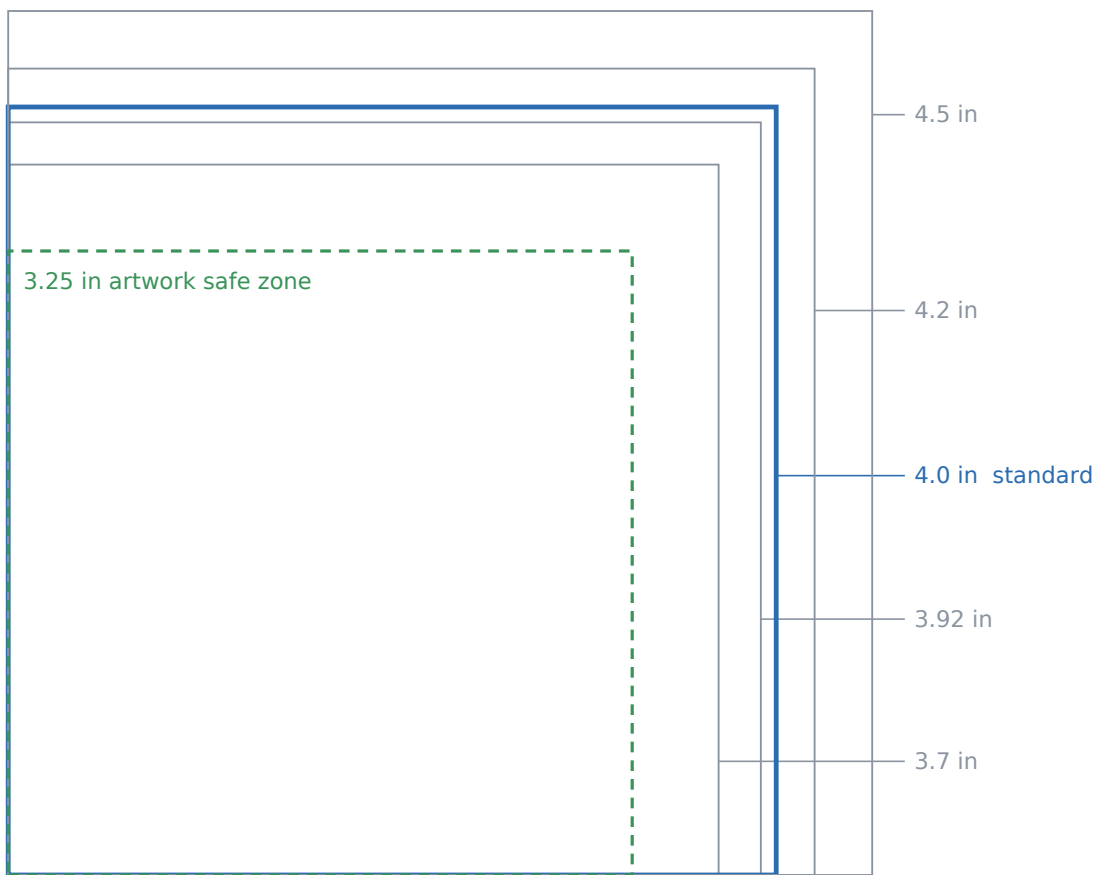

Not sure what size your sheets are? Use the gauge on the next page.

# Measure Your Square

Print this page at 100 percent scale, then lay one dry sheet on the corner below.

Align the bottom left corner of your sheet to the marked corner and read which line its edges reach.

Every design in this pack fits inside 3.25 in, so it works on all of these.

**Align your sheet to this corner**

Print at 100 percent scale. Trim along the thin square, then press.

Square shown at 4.0 in. Artwork sits within 3.25 in so it fits sheets down to 3.7 in.
