

Epson ET-15000 ICC Profile Compatibility Matrix

Quick reference for choosing a profile path. Last verified: September 15, 2026.

Ink / system	ET-15000 support	ICC approach	Important requirement	Status
InkOwl Performance-D	Confirmed	Supplier ICC profile	Use profile intended for InkOwl ink	VERIFIED
Imprintable Sublimation Ink	Confirmed	ET-15000-specific ICC	Imprintable ink + S-Race Vivid 120 paper	VERIFIED
Hiipoo ICC-Free Ink	Confirmed	No separate ICC intended	Follow current Hiipoo ICC-free workflow	VERIFIED
InkjetBiz GO / SubliMate	Confirmed	Dedicated profile system	Use matching GO/SubliMate ink, paper and current profile	VERIFIED
A-SUB	Profile resource available	Supplier ICC workflow	Designed for A-SUB ink + paper	VERIFY ET-15000
Printers Jack	Ink commonly used with ET-15000	Supplier verification required	Do not substitute another Epson model profile	VERIFY CURRENT FILE
Cosmos Ink	ET-15000-compatible ink confirmed	Follow current Cosmos workflow	Confirm exact public ET-15000 profile first	VERIFY CURRENT FILE

No universal ET-15000 ICC profile exists.

Match the profile to the exact ink, paper, printer and supplier workflow. If the supplier does not verify ET-15000 compatibility, do not substitute another Epson model profile.
